EXPERIENCE

Capgemini IT India Pvt. Ltd.

Software Engineer

Feb 2025 – Dec 2025

Gurugram, India

- Built RESTful APIs handling **1,000+ daily requests** with JWT-based authentication and role-based access control (RBAC).
- Participated in code reviews and enforced best practices, improving code quality and reducing **bug density by 30%**.
- Collaborated with cross-functional teams to understand requirements and deliver end-to-end backend solutions on schedule.

Fritado Technologies Private Limited

MERN Stack Developer Intern

Nov 2024 – Jan 2025

Bangalore, India

- Worked on feature testing and validation of backend workflows using Postman.
- Learned production-level API design, version control with Git, and collaborative code review processes.
- Identified and resolved **20+ backend bugs** in Express.js and MongoDB, improving overall application stability.

EDUCATION

Netaji Subhash Engineering College

B.Tech – Computer Science and Business Systems | CGPA: 8.34 / 10

Kolkata, West Bengal

2020 – 2024

PROJECTS

Food Ordering Web App | [link](#) | Node.js, Express.js, MongoDB, React.js

- Built a full-stack food ordering platform with JWT-based user authentication and dynamic shopping cart functionality.
- Implemented secure checkout process with real-time order tracking powered by a Node.js/Express.js backend.
- Deployed on Render with automated CI/CD pipeline using GitHub Actions for seamless production releases.

Gym Website with AI Chatbot | [link](#) | Node.js, Express.js, MongoDB, Dialogflow

- Developed a full-stack gym services platform with membership management and class scheduling using MERN stack.
- Integrated a **Dialogflow-powered chatbot** to handle dynamic user queries and reduce manual support interactions.
- Designed RESTful API endpoints for gym services, ensuring scalable and maintainable backend architecture.

Blog Platform | [link](#) | Node.js, Express.js, MongoDB, EJS

- Developed and deployed a blog app with full **CRUD operations** for posts and comments.
- Implemented JWT-based user authentication with personalized access control for post management.
- Built comment system with ownership validation allowing users to create, update, and delete their own comments.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), SQL

Backend: Node.js, Express.js, RESTful API Design, JWT, RBAC, Middleware, MVC Architecture

Database: MongoDB, Mongoose ODM

Tools: Postman, Git, GitHub, GitHub Actions (CI/CD), Render, Railway
